COUNTER IMPROVISED EXPLOSIVE DEVICE (CIED) SECURITY SOLUTIONS THAT WORK FOR YOUR BUSINESS.

As a first responder you will face difficult and dangerous situations where you will be asked to deal with an adversary who may be trying to kill or harm you or the general populace.

In today's climate the incidence of terrorism, civil unrest and criminality are on the increase. The adversary we face today whether a terrorist group, fanatical cult, lone wolf or an organised crime syndicate are :

- Highly skilled.
- Extremely motivated.
- Better Prepared.
- Well funded.
- Adaptable.

If you are to face these challenges you must be one step ahead.

You must be better prepared and able to face these adversaries on a unified front where all first responders are able to work in cadre to defend against a common foe.

This online course will help you in achieving that goal through:

- Foundation knowledge of SEARCH concepts.
- Understand the principles of Search.
- Component of improvised devices and Boobytraps
- Ability to assess a given threat.
- Forensic awareness.
